STATE'S CASE

Partially Outlined by Prosecutor Pomerene in His Opening Statem at to the Jury.

Prosecutor Pomerene opened the case in behalf of the state. He said:

"The indictment in this case charges Annie E. George with the deliberate and premeditated killing of George D. Saxton. Now, gentlemen, to strip this in dictment of legal and medical phraseology, there were four wounds in the body of George D. Saxton. The testimony will show that the crime was committed in this city, on the night of the 7th of October last, a few minutes after 6 o'clock. FIRST WITNESS.

Surveyor Hoover Describes the Scene of the Tragedy and Presents a Plat of the Premises.

"Call the witnesses for the state," directed Judge Taylor at 9:15 Saturday morning, and the issues in the case began to unfold. The clerk called the entire list. The first witness to take the stand was County Surveyor John S Hoover, who made the measurements and produced the plat which was about to be introduced in evidence. Witness explained in detail the plat which he had made. When it came to the question to permit a good view from the Eckroate property to the scene, the defense objected, as the trees are not the same as

"The objection is sustained." said the court. "Trees with leaves on and tree without leaves are very different when it comes to a question to view."

Mr. Hoover said the plat he presented west, and not from the north. Witness Cherry street. described the trees. Two peach trees and a cherry tree play a part in obstructing the view. Henry Bederman stood in the door of the Eckroate grocery, diagonally across the street, it will be claimed. It is said that there was no witness in the Glick property, fourteen feet north, and that no one was at home at the Quinn property, just south. Such witnesses to the transaction as will be introduced are across the street. Hence the importance structions to the view.

Mr. Welty objected to the plat in that he claimed, there were some inaccuracies as to the angle of the Eckroate property. "If that building is turned around by the draughtsman so that it can be seen
